## October Meeting at Beale Air Force Base—A Success!

"Two thumbs up" for the general meeting at Beale Air Force Base on Tuesday, October 22nd 2002. Producers and critics agree—the meeting was quite a success.

1LT Josh Biggers, Director of Plans and Programming Global Hawk Beddown U.S. Air Force, provided insight regarding the Global Hawk Unmanned Aerial Reconnaissance Vehicle's mission and performance specifications. CPT Philip Secrist, Project Manager U. S. Army, provided an overview of military construction on Beale Air Force Base.

Approximately 55 to 60 persons attended the luncheon at the Recce Point Club on base. In addition, approximately 8 members attended walking tours of the new Water Treatment Plant and Air Traffic Control Tower. Members walked through all 14 floors of the control tower. Members caught a bird's eye view of the base.

A "Bird's eye" view of the Main Base at Beale Air Force Base. Our view of the base was spectacular from the New Control Tower, not quite this spectacular!

A secondary goal of this meeting was to generate interest to establish a satellite Post, of your Sacramento Post, at Beale Air Force Base (AFB). Members of your Board of Directors, LTC Connelly and others, met with LTC Perkinson before and after the meeting at to establish duties and responsibilities for the new satellite Post. The Post Operations Manual will be used to help with the creation

The Sacramento Chapter of the **Environmental Marketing Association (PEMA)** and the Sacramento Post of the **Society of American Military Engineers (SAME)** will be holding a joint holiday mixer Thursday December 5, 2001. Hors d'oeuvres, wine, beer, and non-alcoholic beverages will be served. We will also be raffling off several items and services.
